Whether you're a new or seasoned calligrapher, take your pointed pen script beyond the formal with Barbara's lively variations. You'll learn a variety of alternate characters for every letter of the alphabet, explore myriad options for capitals, then combine these variations with traditional forms as you practice words from ornate to funky.

Barbara is an internationally known calligrapher, designer, and instructor, with a studio located in Southern California. She has taught for several international lettering conferences and at many IAMPETH Conferences. Join us in the classroom as Barbara teaches live from her studio via zoom.
